*The incredible value
of education.*

www.ccbycmd.edu

Beckie Thurmond has been a student in my Typography class in the Art Design and Interactive program at the Community College of Baltimore County. Beckie possesses the qualities every professor desires from a student. Beckie is always ready for class, on time as well as being interested in the subject matter. She is very eager to learn and challenge the ideals of design and does so with a desire and drive. Her constant desire to seek new information, new ways of seeing design and new ways approaching design has made Beckie a perfect fit for a job in Graphic Design. All of these traits are very rare to see in one person.

What impresses me most about Beckie is her consistent seeking of knowledge and how to use it in her work. She also has this ability to see the problem and works really hard to find the solution. Beckie works hard and thinks a lot about what she is doing, and she never wants to do something that is not interesting. She approaches every project as a new challenge and always seems to enjoy what she is doing. Her senses of organization, structure, determination, and the ability to take criticism and learn from it are what make Beckie great as a student and future employee.

It has been a pleasure to have Beckie Thurmond as a student. I am confident that she will be a great addition to any company.

Sincerely,

David Zobel
Associate Professor
